The Experience

ELOPEMENT COLLECTIONS GUIDE

The experience

More than just beautiful photos, your elopement experience should feel calm, meaningful and completely true to the two of you.

01

Before your elopement

Long before your elopement day arrives, I'll be there to help everything feel relaxed, exciting and easy to plan.

Whether we're chatting through location ideas, planning your timeline over coffee or dreaming up how you want the day to feel, every part of the experience is designed to help you feel comfortable, connected and completely at ease in front of the camera.

02

On your elopement day

Eloperments move differently to traditional weddings — slower, more intentionally and with far more space to simply be together.

My role is to gently guide you when needed while documenting your story as it naturally unfolds, allowing you to stay fully present while I capture all the quiet, meaningful moments that make the day uniquely yours 

03

After your celebration

Shortly after your elopement, I'll send through a little sneak peek because I know how exciting it is to relive it all.

From there, I carefully edit your gallery so you can look back on your day exactly as it felt — through all the beautiful little moments you may not have even realised were happening at the time 

Love Notes

I cannot recommend Brooke highly enough. She deserves 10 stars! She giggled with us and captured every moment of the day perfectly. If you need a photographer, Brooke is hands down the one you want.

FAQ Common Questions

Can we make a full day out of our elopement?

Absolutely. Some couples choose a simple ceremony while others turn their elopement into a full experience together — exploring multiple locations, sharing a private dinner or simply slowing down and soaking it all in.

I offer collections designed around different kinds of elopement experiences, and I'm always happy to help tailor coverage around what feels right for your plans 💕

We're awkward in front of the camera... help?

Honestly, almost every couple says this before their elopement 💕 My approach is very gently guided and relaxed, so nothing ever feels overly posed or uncomfortable.

How long does it take to receive our gallery?

You'll receive a little sneak peek shortly after your elopement, with your full gallery carefully edited and delivered within approximately 4 weeks.

Do you travel for elopements?

Absolutely. I'm always happy to travel for elopements and love capturing celebrations in beautiful locations both close to home and further away 💕

What happens if the weather changes?

Some of the most beautiful moments happen in unexpected weather. I always come prepared with backup plans and calm guidance so your experience still feels relaxed and enjoyable no matter what unfolds.
