# The Experience

WEDDING COLLECTIONS GUIDE

# The experience

More than just beautiful photos, your wedding photography experience should feel calm, effortless and genuinely enjoyable from beginning to end.

01

## Before the wedding

Long before your wedding day arrives, I'll be there to help things feel calm, organised and genuinely exciting.

Whether we're planning your timeline over coffee, chatting through your vision for the day or hanging out together at your engagement session, every part of the experience is designed to help you feel comfortable, connected and completely at ease in front of the camera.

02

## On your wedding day

On your wedding day, my role is to help everything feel calm, relaxed and easy while documenting your story as it naturally unfolds.

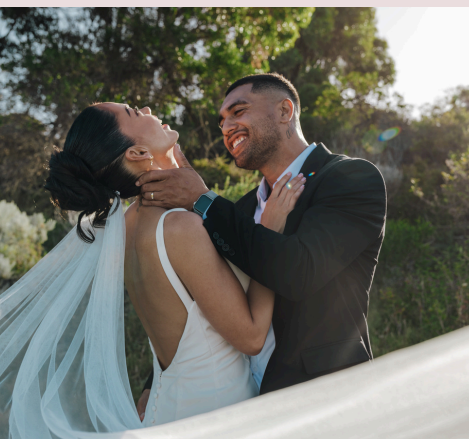

I'll gently guide you when needed, organise family photos and help you feel comfortable in front of the camera so nothing ever feels stiff or overly posed — allowing you to stay fully present while I capture all the moments that matter most 

03

## After your celebration

Shortly after your wedding, I'll send through a little sneak peek because I know how excited you'll both be to relive it all.

From there, I carefully edit your gallery so you can look back on your day exactly as it felt — through all the beautiful little memories you may not have even realised were happening at the time 

# Love Notes

Brooke was really amazing, she was so helpful and so supportive. Any questions you had she was so prompt to answer them. On the wedding day she captured some amazing photos and the quality is amazing and she was never in the way at all always just blended in and captured some natural moments. Couldn't recommend a better photographer for any special occasion

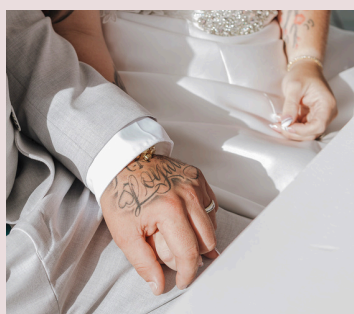

*Robyn & Lucas*

Brooke made us feel super comfortable when taking our wedding photos. Being a same sex couple there was ALOT of people staring at us and Brooke made us feel like it was just us and her. She takes the time to make sure the photos are perfect and honestly we couldnt thank her enough for the effort she put in.

*Ashley & Rebekah*

Brooke recently captured our wedding day! She was super friendly from the moment we met her and was incredibly calming with pictures and the photos we wanted. The photos we got back are beautiful and I couldn't recommend Brooke more! She was incredible and exactly what we wanted for our wedding day

You'll receive a beautifully curated gallery telling the full story of your day. Rather than focusing on a specific number, I focus on capturing all the meaningful moments so nothing important is missed and every image you receive feels intentional 📸

## We're awkward in front of the camera... help?

Honestly, almost every couple says this before their wedding 📸  
My approach is very gently guided and relaxed, so nothing ever feels overly posed or uncomfortable.

## How long does it take to receive our gallery?

You'll receive a little sneak peek shortly after your wedding, with your full gallery carefully edited and delivered within approximately 4 weeks.

## Do you travel for weddings?

Absolutely. I'm always happy to travel for weddings and love capturing celebrations in beautiful locations wherever your day takes place 📸

## Can we customise a package?

Of course. Every wedding is different, and I'm always happy to tailor coverage around what feels right for your plans.

## What happens if it rains?

Some of the most beautiful moments happen in unexpected weather. I always come prepared with backup plans and calm guidance so your day still feels relaxed and enjoyable no matter what unfolds.
